“A FORUM ON TECHNICAL AND OPERATING ISSUES”

Wednesday 30 January 2002

Ragchew and Fleamarket: 19:30

Club meeting: 20:00

St. Thomas Anglican Church, Corner Somerled and Rosedale
(Please use side entrance off Rosedale)

Don Dashnery, VE3RM will moderate a discussion on technical and operating issues.

So bring in your technical questions and knowledge and participate to help make this a evening of discovery and fun. This is always a very popular topic and should prove once again to be a very interesting and informative evening.

A WORD FROM THE PRESIDENT

Hello there,

Well, winter hasn't broken any great records for cold or snowfall this year. So far "The Great Merger" hasn't been a disaster as some predicted. Time will tell and the wheels of change do move slowly.

One change that will come this spring is the re-opening of the Lachine Canal. It is anticipated that on May 25 a Marine Parade will take place to celebrate the opening. It is also hoped that this will become an annual event to celebrate the opening of the canal each spring. Our assistance in providing safety communications will be needed for this event. It is anticipated that something over 100 watercraft will be involved along with several

hundred participants and thousands of spectators. It will be a forum to demonstrate our hobby in a good light.

While I know that it is scheduled for the day before the St-Lazare Cyclo-Tour I am hopeful that many of you will offer your assistance, particularly if you don't usually participate in the Cyclo-Tour. Here is a local event where we can offer a valuable public service. How about it folks? I hope to see you all volunteer for one of our events this year.

As you may know the annual hamfest is planned for April 13 at the LaSalle Legion. I hope that you will all mark your calendars and plan to attend. If you have items to sell consider booking one or more tables. If you can assist us with the planning or with the event please let me know.

The MarcOgram is published nine times per year on the second to last Wednesday of September through June, excepting December by the Montreal Amateur Radio Club. Advertising and copy deadline is one week prior to publication.

Editor:
 Craig Brander, VE2YGK craigyul@total.net 514-488-5109

Annual fees are:
 General Members \$23.00
 Associate Members \$23.00
 White Cane Members... .. \$10.00
 Family Members (per family) \$28.00

The membership year runs from September 1 to August 31. Memberships received on or after June 1 commence immediately and extend through the subsequent membership year - covering a period of up to fifteen months.

Articles published in the MarcOgram may be reproduced providing credit is given to the original author and the Montreal Amateur Radio Club as the source.

The opinions expressed herein are, unless otherwise stated, solely those of the authors concerned, and not those of the Club, the Directors or members and do not represent the policy of the Club.

Directors

Repeaters

VE2BG 147.06 MHz (+)
 Owned and operated by the Montreal Amateur Radio Club. Located on the Pointe Claire water tower.

VE2RED 147.27 MHz (+)
 Owned and operated by the Montreal Amateur Radio Club. Located near Decarie and Cote St. Luc Road.

The repeaters are open to all amateurs and VE2RED also offers a phone patch available to all amateurs during the day and evening.

Meetings of the Board of Directors

Meetings of the Board of Directors are open to any member to attend. Board meetings are held the first Wednesday of the month (Sept. to June) at 7:30 PM at the Montreal Association for the Blind, 7000 Sherbrooke St West. Should you wish to attend one of the meetings you are welcome. Just speak to one of the directors before-hand to make certain that the meeting has neither been cancelled, nor the location changed.

Club Activities

Tentative Meeting Schedule

January 30 2002 - A Forum on Technical and Operating Issues. Meeting chaired by Don Dashney, VE3RM
 As usual, the meetings start with a casual Ragchew at 19:30 and the gavel at 20:00.
 February 27 2002 - TBA
 March 27 2002 - TBA
 April 24 2002 - TBA
 May 29 2002 - Show and Tell

Radio Classes

A basic level course will be normally held in January each year. At the moment a basic level course has just started. Five students are participating this year and we hope to have progress report as the course progresses. A code course started in the fall is still on going.

Hamfest

Montreal Amateur Radio Club Hamfest and Fleamarket, Saturday, April 13, 2002 - LaSalle (Montreal), Quebec. Royal Canadian Legion Branch 212 (LaSalle, QC), 7771 Bouvier corner Shevchenko. More details on page seven of this month's Marcogram. Your directors look forward to your assistance with both planning and running the

IN CASE OF EMERGENCY

FROM THE EDITOR'S DESK

Best wishes to everybody for a healthy and successful New Year. It looks to be a year of change locally and change often brings some challenges to be met. I hope we will all be take part in some of the club activities and other communication events in the region this year. It looks like we once again have some interesting events that we can participate using our communication skills.

Thank-you to the members and the board of directors for your expressions of sympathy on the passing of my father in November. Also a big thanks to our President, Jim Hay and Vernon Ikeda keeping the Marcogram in smooth production last fall during during my father's illness when schedules became difficult to keep. Their efforts are much appreciated. Things continue to be hectic but less so then before.

We have just started another basic course this winter, so good luck to the 5 participating students. May this be start of a long and enjoyable relationship with amateur radio.

73 de Craig, VE2YGK

RAC BULLETINS

TOPHAT 2002 PLANNED FOR APRIL 6TH

Tophat 2002, an emergency communications competition for British Columbia's Lower Mainland and Fraser Valley regions is set for April 6th, 2002. Teams of 10, representing various municipalities, compete in an emergency scenario, including set-up and standard operating procedures, formal messaging, and problem solving. Teams

staff their municipal EOC, hospital, reception centre and one surprise remote location. The scenario is announced at the start of the exercise and is based on an actual event in Canadian history.

Last year, 140 amateurs representing 13 municipalities formed 10 teams. Tophat 2001 was based on the 1945 ship explosion in Vancouver harbour.

While the competition is limited to teams in British Columbia, any other group that wants to participate in their municipality using the same scenario and problems can contact the Tophat design team for further information.

All information about Tophat 2002 can be found at <http://www.amateurradio.ca>
(Thanks to Tom Cox VE7TOX)

From the RAC web page:

<http://www.rac.ca/dnews.htm>

SOLAR DOUBLE HEADER !

The NOAA Space Environment Center in the US is predicting that the current solar cycle (Number 23) will be a double header. Solar flux and sunspot numbers peaked in the year 2000 and started to decrease, but recent increased activity on the sun has driven the 27 cm flux to new highs, and will result in a second maximum around the beginning of 2002.

Good news for HF propagation as the higher frequency HF bands will be open more and for a longer period of time before we drop back to the sunspot minimum. For more details visit NASA science news at

http://science.nasa.gov/headlines/y2002/18jan_solarback.htm?list475816

Information from:

<http://www.rac.ca/ituissue.htm>

- . . . -

CANADIAN SKI MARATHON

(Editor's Note: This arrived just at the deadline so if you are interested respond as soon as possible.)

Once again, the Canadian Ski Marathon requires radio volunteers to support the routine and safety communications during the event which takes place all weekend of February 9 & 10.

Richard VE3UNW has asked us if any hams wish to participate from the Montreal area. The information pertaining to ham operations is taking shape at the following web page:

<http://206.47.37.125/csm/>

Also the official CSM web page is always at:

<http://www.csm-mcs.com/>

It is probably easier for me to collect info and give a summary to Richard so contact me for details.

What is required is:

2 x 2m mobile rigs (30-40W essential) there are 2 frequencies to operate at the same time, good antennae (you will be in the woods, on your own) lots of power (batteries).

The instructions we use for the ski marathon are very close to what we do for the ski marathon. It is only "more rugged" conditions

I need to know which days you are available, and what equipment you have.

Typically, a day starts anywhere between 6AM to 10AM and ends anywhere from 14h00 to 20h00. It's a lot of fun.

Please respond quickly if you are interested. The schedules are already almost done.

73 de JF, VE2TDH

Jeff <jeff.g@pubnix.net>

SCANNERS HEAR IT FIRST

BY FREDERICK HART, VE2LSQ

Happy New Year to all. Welcome to January... Unless this month has been merged with another and is called something else and the dates change daily not necessarily in order and mix old dates with new but rebel and refuse to use the new dates! Hey, this sounds just like the merger of the Montreal Fire Department with the area municipalities officially Service de Securite Incendie de Montreal (SSIM) from the old SPIM, just take out the prevention part which nowadays we are prevented from our sanity as the puzzle pieces get put together. The big department is 66 stations strong and for our listening delight will be heard on 412.7625 for quite some time as the trunking 800 MHz are retransmitted onto the UHF 412.4875 is also in use for now

as the medical first response calls. The changeover is certainly keeping frenetic hobbyists and scanner people busy trying to make heads or tails of the new happenings. Who said scanning was getting boring? Confusion rules! Last month we listed the stations and the types of apparatus. Enclosed this month is an up to date apparatus roster as we know it so far. Changes will continue to happen but you will get the gist of what's around. Many thanks to Jim, VE2VE and Vern, VE2MBS, for their help on getting the facts, and to the many firebuffs whom I associate with and have for many years. Its fun to collect all the data and set up where its all going to go and the end result is a better understanding of what we are listening to. If you think that that ride at "La Ronde" the Monster is a hoot... Try a spin on the rumour mill in the new SSIM... The ultimate e-ticket ride! Better get the ears ready folks because you are in for quite the earful this year.

73 de Fred.
